# Union Plastic Public Company Limited Notes to interim financial statements

For the three-month and nine-month periods ended 30 September 2023

### 1. General information

## 1.1 Basis of preparation of interim financial statements

These interim financial statements are prepared in accordance with Thai Accounting Standard No. 34 Interim Financial Reporting, with the Company choosing to present condensed interim financial statements. However, the Company has presented the statements of financial position, comprehensive income, changes in shareholders' equity and cash flows in the same format as that used for the annual financial statements.

The interim financial statements are intended to provide information additional to that included in the latest annual financial statements. Accordingly, they focus on new activities, events and circumstances so as not to duplicate information previously reported. These interim financial statements should therefore be read in conjunction with the latest annual financial statements.

The interim financial statements in Thai language are the official statutory financial statements of the Company. The interim financial statements in English language have been translated from the Thai language financial statements.

### 1.2 Significant accounting policies

The interim financial statements are prepared by using the same accounting policies and methods of computation as were used for the financial statements for the year ended 31 December 2022.

The revised financial reporting standards which are effective for fiscal years beginning on or after 1 January 2023, do not have any significant impact on the Company's financial statements.

# 1.3 New financial reporting standards that will become effective for fiscal years beginning on or after 1 January 2024

The Federation of Accounting Professions issued a number of revised financial reporting standards, which are effective for fiscal years beginning on or after 1 January 2024. These financial reporting standards were aimed at alignment with the corresponding International Financial Reporting Standards with most of the changes directed towards clarifying accounting treatment and providing accounting guidance for users.

The management of the Company believes that adoption of these amendments will not have any significant impact on the Company's financial statements.

# 2. Related party transactions

During the periods, the Company had significant business transactions with related parties. Such transactions were concluded on commercial terms and bases agreed upon between the Company and those related parties, arose in the ordinary course of business. There were no significant changes in the transfer pricing policy of transactions with related parties during the current period.

Summaries significant business transactions with related parties as follows.

(Unit: Million Baht)

#### Fair value of financial instrument 8.

Most of the Company's financial instruments are classified as short-term or have interest rates that are close to market rate. Therefore, the carrying amounts of these financial instruments presented in the statement of financial position is estimated to approximate their fair value.

#### 9. Approval of interim financial statements

These interim financial statements were authorised for issue by the Company's audit committee on 10 November 2023 as assigned by the Company's board of directors.
